PREPARING YOUR DOCUMENTS

CONSIGNMENT NOTES

Consignment notes help to ensure your shipment is delivered as quickly as possible.

When you're sending a shipment, you'll need to create a consignment note. It contains all the details about your shipment and accompanies the shipment throughout its journey. The easiest way to prepare your consignment note is to use one of our online shipping tools.

When you have entered all details for your shipment, the online tool will generate a consignment note which you can print onto plain paper. If you would prefer not to use our online tools, you can manually complete a consignment note for your shipment.

The examples below show you the details you will need to complete.

Every shipment is assigned a unique consignment number. It appears underneath the barcode of the note. You can use these letters and numbers to track the status of your shipment through our tracking tools.
